

SEND SYSTEM LEADERS & PARENT CARERS MONTHLY MEETINGS

Who we are

We collect the independent voice of local families in the Borough of Luton. We aim to play a lead role in shaping how services are designed, delivered and promoted.

We will work with those that provide education, health and social care services to give feedback from local families. We will do this by providing lots of opportunities for families to have their voices heard and views shared.

We would like to invite you to our monthly meetings with leaders from the following SEND (Special Educational Needs and/or Disabilities) SYSTEM departments.

This would give parents and carers the opportunity to meet and share views with:
Social Care, Education & Health Care representatives.

The sessions are scheduled as follow:

Health Session on the 24th of February 2022 at 10:00- 11:30

Social Care + Education & Health Care Session on the 21st of March 2022 at 10:00-12:00

All the above sessions will be held at:

Future House, The Moakes

Luton, LU3 3QB

To register, please follow this link and choose your session
